		<p>level of team-work and good communication skills. An excellent level of support is provided by Specialty Trainees and the Consultant group. DCT's will be allocated to teams within the department to enable them to gain experience in all aspects of OMFS. Weekly teaching takes place at the Queen Elizabeth University Hospital. Applicants should note that travel between hospitals in the Glasgow area may be required for local lists and clinics.</p> <p>There is no on-call requirement associated with this post.</p> <p>The second rotation commences in March 2025 until August 2025. The Restorative Department at GDH offers experience in: Periodontology, Fixed and Removable Prosthodontics and Endodontics. There are both core and specialist level training post holders working throughout the department. Clinical experiences may include: new patient referral clinics, treatment sessions, including basic surgical training, supervision of BDS or BSc students, and an emergency patient session. Incoming DCT's will all undergo an extensive departmental induction programme. The Research Training component of this post offers an opportunity for Core Trainees to engage in research and will include carrying out translational and clinical research. An estimated 4 sessions per week will be allocated to active involvement in research. The post holder will work on established clinical studies in the Glasgow Dental Clinical Research Facility (https://www.gla.ac.uk/schools/dental/research/crf/). Training relevant to the role will be provided. The post holder will be supported and mentored by experienced research active senior staff, including the staff at the Glasgow Dental Clinical Research Facility.</p>
10.	Suitable for Temporary Registrant?	NO
11.	Primary Care element Performer/List Number required?	NO
12.	Pattern of working including any on-call commitment	Monday – Friday
13.	Educational programme summary	There is a Scotland-wide education programme for Dental Core Trainees which is designed to match the DCT curriculum. The programme has four themes running through each year of Dental Core Training. These are: Clinical, Communication, Career Development Skills and Quality Improvement & Patient Safety. Posts begin with a local health board and NES induction, followed by face-to-face study events

		<p>throughout the year, supported by Turas Learn. These events include all Dental Core Trainees in Scotland, as does the annual DCT conference.</p> <p>All trainees have access to study leave time (in line with terms and conditions of service) and budget. This is predominantly to fund attendance of DCTs at the compulsory NES Educational events, however funding may be available to contribute to the cost of other courses linked to an agreed PDP.</p> <p>DCT posts include time for self-directed learning and trainees are encouraged to use this time for personal study and to complete quality improvement projects.</p> <p>All DCTs, who have not worked in an Oral & Maxillofacial Surgery (OMFS) unit in Scotland previously, attend an additional two-day induction course known as Maxfacts. This course is designed to cover the essential skills for an OMFS DCT post and is delivered by OMFS consultants and senior trainees. The teaching is backed up by on-line resources which will be made available to DCTs prior to the Maxfacts course</p>
