

# Viewing PDFs on Mobile Devices

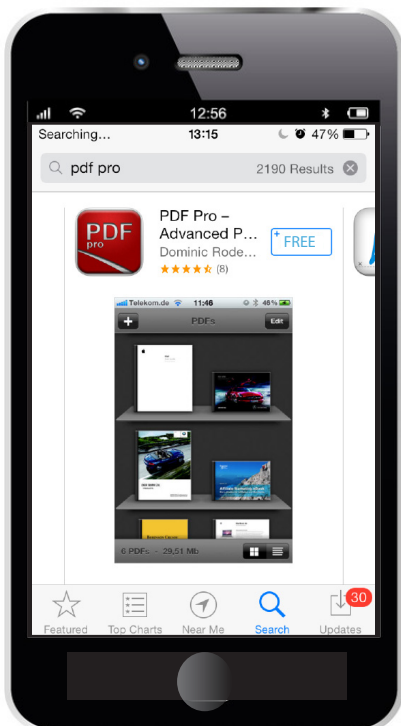

If you are using an iPhone or iPad to view NES PDFs you will need to download a free viewer from the app store to benefit from the full range of navigation features, including the clickable contents menus. Follow the steps below to install and use the viewer.

## Downloading the Viewer

The viewer we recommend using is PDF Pro, this is a free to download viewer available on the app store. To install the viewer, simply click on the App Store Icon on your home screen and then search for 'PDF Pro'.

App Store Icon

Click on the blue box at the right hand corner which says 'FREE', it will then turn green and the word will change to 'INSTALL'. Click once more and the viewer will begin to download and install on your device.

If you have a password set up on your device it may ask you for this now.

Please note: you will need to have adequate free space on your iPhone or iPad for the app to install.

## Using PDF Pro

Using the viewer is simple, once installed it will be automatically added to the options for viewing when opening a PDF.

Simply navigate to the location on the web using Safari, click on the PDF you want to view and an option will appear at the corner of the screen which says 'Open in...'

Click on the 'Open in...' option, followed by the PDF Pro icon and the PDF will launch in the viewer. Once Viewing in PDF Pro all of the navigational features will be functional, simply tap the buttons onscreen to get started.
