

Confidential Contacts – Biography – Lindsay Donaldson

I am the Deputy Medical Director within the medical directorate at NES and have been in this role since January 2023.

Prior to joining NES I was the Director for Medical Education in NHSGGC and a consultant in Intensive Care Medicine at Glasgow Royal Infirmary.

My role within NES has supported me to work across the directorate and organisation.

On a more personal level I am a keen, if not talented, horse rider and in addition to the horses have 21 sheep.

It is my privilege to be a confidential contact and being able to support colleagues.
