7.	Educational Supervisor	Will be confirmed to post-holder			
8.	Description of the training post	The first part of the post based at ADH, ARI and RACH will commence in September 2023 through to March 2024. At ADH the DCT1 will be based in the Restorative Dentistry Department and will be involved in the care of patients with varying and complex treatment needs. The full range of procedures in Restorative Dentistry is carried out in a fully integrated manner. All aspects of Endodontics, Periodontics, Fixed and Removable Prosthodontics, including Maxillofacial Prosthodontics, and Implant Dentistry are performed. This post will be spent between the OMFS and Oral Surgery departments of the IoD at Aberdeen Royal Infirmary.			
		The postholder will contribute to the delivery of specialist Oral Surgery treatment of adult and paediatric patients under GA, LA and LA with sedation. The postholder will have the opportunity to attend monthly Radiology MDT meetings and would be expected to contribute to departmental clinical governance and quality improvement activities. There will be an opportunity for the postholder to develop their knowledge,			

skills and behaviours as a clinical teacher and trainer by contributing to the delivery of undergraduate student extraction clinics. Routine outpatient clinics will be on offer with the ability to deliver remote consultations' to facilitate the provision of Oral surgery services across NHS Gramphin. There is no on call commitment attached to this rotation. The DCT1 will undertake a range of PDS duties from March 2023 to August 2023. These may include dental inspection of schools, domiciliary care, care of patients who have special needs or require special care, and paediatric dentistry. There may also be opportunities to participate in GA lists. You will receive training in inhalation sedation. National Death Inspection Programme and Childsmile activity may also be offered. Although Mastrick will be the clinic base, regular sessions will take place in other clinics in the city as well. 9. Primary Care training element In this post the DCT1 will work for six months in the PDS. You therefore need to be eligible for an NHS list number. There is a Scotland-wide education programme for Dental Core Trainees which is designed to match the DCT curriculum. Career Development Skills and Quality Improvement & Patient. Stety. Posts begin with a local health board and NES induction, followed by a number of face-to-face study events throughout the year, supported by Turas Learn. These events include all Dental Core Trainees in Scotland, as does the annual trainee conference. All trainees have access to study leave time (in line with terms and conditions of service) and budget. This may be used to access MPDS/MPDM.DF courses and other courses linked to an agreed PDP. DCT posts include time for self-directed learning and trainees are encouraged to use this time for personal study and to complete quality improvement Projects. All DCTs, who have not worked in an Oral and Maxillofacial Surgery (OMFS) unit in Scotland previously, attend an additional two-day induction course: Maxfacts. This course is designed to cover the e					
There is a Scotland-wide education programme for Dental Core Trainees which is designed to match the DCT curriculum. The programme has four themes running through each year of Dental Core Training. These are: Clinical, Communication, Career Development Skills and Quality Improvement & Patient Safety. Posts begin with a local health board and NES induction, followed by a number of face-to-face study events throughout the year, supported by Turas Learn. These events include all Dental Core Trainees in Scotland, as does the annual trainee conference. All trainees have access to study leave time (in line with terms and conditions of service) and budget. This may be used to access MFDS/MFD/MJDF courses and other courses linked to an agreed PDP. DCT posts include time for self-directed learning and trainees are encouraged to use this time for personal study and to complete quality improvement projects. All DCTs, who have not worked in an Oral and Maxillofacial Surgery (OMFS) unit in Scotland previously, attend an additional two-day induction course: Maxfacts. This course is designed to cover the essential skills for an OMFS DCT post and is delivered by OMFS consultants and senior trainees. The teaching is backed up by on-line resources which will made available to DCTs prior to the Maxfacts course. 11. Employment information 12.
