

## DENTAL CORE TRAINING 2023/24

### Scotland - Dundee Dental Hospital - Oral Surgery

1.	<b>Deanery name</b>	NHS Tayside NHS Education Scotland
2.	<b>Type of training post</b>	DCT2
3.	<b>Rotational Post information</b>	Non rotational
4.	<b>Training unit/location/s</b>	Dundee Dental Hospital, Dundee
5.	<b>Full address of training units where training will take place</b>	Dundee Dental Hospital Park Place Dundee DD1 4HN
6.	<b>Travelling commitment</b>	Sometimes between local units
7.	<b>Educational Supervisor</b>	To be confirmed with post-holder
8.	<b>Description of the training post</b>	This post provides comprehensive experience in oral surgery and oral medicine. There is good exposure to simple exodontia and minor oral surgery including treatment under conscious intravenous sedation and general anaesthetic. There is an opportunity to attend consultation clinics in oral surgery and oral medicine. The post holder will be expected to engage with undergraduate teaching of simple exodontia.
9.	<b>Primary Care training element</b>	N/A
10.	<b>Educational programme summary and library facilities</b>	<p>There is a Scotland-wide education programme for Dental Core Trainees which is designed to match the DCT curriculum. The programme has four themes running through each year of Dental Core Training. These are: Clinical, Communication, Career Development Skills and Quality Improvement &amp; Patient Safety. Posts begin with a local health board and NES induction, followed by a number of face-to-face study events throughout the year, supported by Turas Learn. These events include all Dental Core Trainees in Scotland, as does the annual trainee conference. All trainees have access to study leave time (in line with terms and conditions of service) and budget. This may be used to access MFDS/MFD/MJDF courses and other courses linked to an agreed PDP. DCT posts include time for self-directed learning and trainees are encouraged to use this time for personal study and to complete quality improvement projects.</p> <p>All DCTs, who have not worked in an Oral and Maxillofacial Surgery (OMFS) unit in Scotland previously, attend an additional two-day induction course: Maxfacts. This course is designed to cover the essential skills for an OMFS DCT post and is delivered by OMFS consultants and senior trainees. The teaching is backed up by on-line resources which will be made available to DCTs prior to the Maxfacts course.</p>
