

NHS Greater Glasgow and Clyde
JOB DESCRIPTION
SPECIALTY REGISTRAR in ORAL SURGERY

Brief Outline:

This is a full-time post in an established training programme with NHS Greater Glasgow and Clyde with some sessions in NHS Forth Valley and NHS Ayrshire and Arran.

The post offers the opportunity to undertake a full-time training programme in the specialty of Oral Surgery based on the Curriculum for Specialist Training in Oral Surgery, leading to the award of a CCST. The curriculum for core training in oral surgery is available on the General Dental Council website www.gdc.org

The post holder will be expected to:

- participate fully in training
- participate in clinical or other service activities e.g. meetings, service development
- undertake clinical audit, quality improvement and participate fully in clinical governance activities
- participate in some undergraduate teaching
- will have the option to pursue research or other original work as time allows

The Training Programme:

This programme has been recognised by the Specialist Advisory Committee in Oral Surgery for a three-year training period leading to eligibility to sit the Tricollegiate Membership in Oral Surgery. The post has approval from the Postgraduate Dental Dean and a Training Number will be awarded to the appointee. All Oral Surgery trainers in Glasgow Dental Hospital, NHS Forth Valley and NHS Ayrshire and Arran are on the specialist list. There is no out of hours or on call commitment. Training will also be provided by consultants in related dental specialties.

The programme will comprise on a weekly basis approximately seven clinical sessions, with the balance being allocated for study, research, audit, quality improvement, administration or didactic teaching.

Performance assessments and reviews (ARCP) are carried out at the six-month point and thereafter, annually, by the Specialty Training Committee (STC), as outlined in the Dental Gold Guide.

About Glasgow

Glasgow, with a population of around 740,000 is Scotland's largest city, and one of Europe's liveliest with a varied and colourful social and cultural life which can cater for every taste. In 2014 Glasgow hosted the Commonwealth Games and now has some world class sporting facilities, including a state of the art velodrome and sporting arena.

Glasgow is a city of contrasts; the bustle of a major commercial and business centre, the greenery of parks and gardens, and a wealth of art galleries, museums, cinemas, world class restaurants and theatres. It has recently been ranked one of the safest cities in the UK. Newcomers quickly feel at home in this vibrant and friendly city.

Glasgow has an extensive road and rail public transport system with one of the largest commuter rail networks outside London and its own underground railway, the 'subway', which serves the University and the centre of the city.

Greater Glasgow and Clyde and the Oral Health Directorate

NHS Greater Glasgow & Clyde is the largest Health Board in Scotland. The Secondary Care Oral Health is part of the Acute Directorate of Regional Services. The Dental Hospital has close working links with the University of Glasgow Dental School which is co-located, The University of Glasgow and the Regional Maxillofacial Unit at the Queen Elizabeth University Hospital (formerly the Southern General Hospital).

The Glasgow Dental Hospital and School

Glasgow Dental Hospital and School is situated in the centre of Glasgow. It is the main centre for specialist dental advice and treatment within the NHS Greater Glasgow and Clyde Health Board area. It also fulfils a similar role for surrounding Health Boards and serves a population of up to 3,000,000.

The total number of chairs within the hospital is approximately 160. It is an undergraduate dental teaching school which is consistently rated one of the top schools in the UK and has an adjoining Postgraduate Centre and Primary Care Out of Hours treatment clinic. There are strong links with the University of Glasgow and other hospitals in the region and it has an excellent library with on-line literature search facilities.

Glasgow Dental Hospital and School comprises the following clinical departments:

Restorative Dentistry

- fixed and removable prosthodontics
- endodontics
- periodontology

Oral Surgery

Oral Medicine

Paediatric Dentistry

Orthodontics

Dental Radiology

The Oral Surgery Department

The Oral Surgery Department has recently undergone extensive redesign and refurbishment and now provides some state of the art facilities for outpatient oral surgery. The clinical areas within the Oral Surgery department provide out-patient clinics in the Oral Surgery Consultant Clinic (7 chairs), a Minor Oral Surgery Procedures facility for the management of emergency patients, student teaching and minor oral surgery procedures such as biopsies (6 chairs) and dentoalveolar surgical procedures. There is also a surgical facility for minor oral surgery with and without sedation, this incorporates 4 spacious theatre type facilities and a large recovery area. All aspects of Oral Surgery are undertaken including implantology and bone grafting. Our services are supported by new and state of the art services in oral microbiology and pathology and by our radiology service with both ultrasound and CBCT available on site. We have good working relations with colleagues in all disciplines within the hospital but particularly with Oral Medicine.
