		Board area in order to obtain a range of experience. There are no travel requirements for the OMFS part.
7.	Name of Educational Supervisor, if known	<ul style="list-style-type: none"> Will be confirmed with post-holder
8.	Contact details for Educational Supervisor	<ul style="list-style-type: none"> Will be confirmed with post-holder
9.	Description of training post	<ul style="list-style-type: none"> The first part of the post will be based in DGRI from September 2025 through to March 2026. There is supervised training both in theatre and outpatients, the latter in both OMFS and oral surgery. General outpatient clinics see referrals from dental and medical practitioners, as well as the community and hospital services. There are combined clinics in head and neck cancer and access to further multidisciplinary clinics. These reflect the multidisciplinary working practice within the region. Involvement is encouraged in the management of these patients. There is good exposure to minor oral surgery and some orthodontics, with support. There is no out of hours on call for DCTs. The DCT1 will undertake a range of PDS duties from March 2026 to August 2026. Predominantly this will involve the provision of comprehensive dental care for registered paediatric and adult patients with additional needs and assessment and treatment of referred patients including management of dental anxiety. The DCT1 will also attend regular exodontia and comprehensive care theatre lists for patients with additional needs 2 weeks and will receive training and become an experienced operator-sedationist in inhalation sedation. Upon completion of the post, DCTs will have completed a logbook evidencing independent sedation provision for both children and adults. The post will also include regular domiciliary dental visits and opportunities to attend prison dental clinics, dental inspection of schoolchildren and both Outreach dental student and therapy student teaching clinics. There will also be a requirement to treat unregistered emergency patients from across the region with the option of participating in additional paid out of hours evening and weekend clinics.

10.	Suitable for Temporary Registrant?	YES	NO
11.	Primary Care element Performer Number required?	YES	NO
12.	Pattern of working including any on-call commitment	<ul style="list-style-type: none"> Will be confirmed with post-holder 	
13.	Educational programme summary	<ul style="list-style-type: none"> There is a Scotland-wide education programme for Dental Core Trainees which is designed to match the DCT curriculum. The programme has four themes running through each year of Dental Core Training. These are: Clinical, Communication, Career Development Skills and Quality Improvement & Patient Safety. Posts begin with a local health board and NES induction, followed by face-to-face study events throughout the year, supported by Turas Learn. These events include all Dental Core Trainees in Scotland, as does the annual DCT conference. All trainees have access to study leave time (in line with terms and conditions of service) and budget. This is predominantly to fund attendance of DCTs at the compulsory NES Educational events, however funding may be available to contribute to the cost of other courses linked to an agreed PDP. DCT posts include time for self-directed learning and trainees are encouraged to use this time for personal study and to complete quality improvement projects. All DCTs, who have not worked in an Oral & Maxillofacial Surgery (OMFS) unit in Scotland previously, attend an additional two-day induction course known as Maxfacts. This course is designed to cover the essential skills for an OMFS DCT post and is delivered by OMFS consultants and senior trainees. The teaching is backed up by on-line resources which will be made available to DCTs prior to the Maxfacts course.
