		<p>following: new patient assessment; treatment sessions, including inhalation sedation; dental accident and emergency; dental trauma management; and multidisciplinary clinics. Clinical time will also be spent within RHC where DCTs may gain experience in new patient assessment and treatment of medically complex children and the in-/ out-patient care of children requiring priority dental care, including those with oncology, haematology, and cardiac diagnoses. Incoming DCT's will participate in a comprehensive departmental induction programme. There are 4 WTE DCT's and a number of Speciality Trainees in the department.</p> <p>The second placement in this post is from March 2025 to August 2025 is in Oral & Maxillofacial Surgery and is based at Forth Valley Royal Hospital. There are multi-disciplinary clinics for patients with head and neck malignancy and facial deformity and trauma. There are three all-day general anaesthetic operating lists each week. In addition, there are daily local anaesthetic sessions and two IV Sedation/LA lists run per week. There are outpatient clinics daily encompassing specialist Head and Neck Oncology and Facial Deformity/Orthognathic and Trauma.</p> <p>The DCTs are supported by medically qualified Foundation Doctors for inpatient management of elective and unscheduled care. They are also supported by OMFS Specialty dentists, Registrar and two Consultants in Oral Surgery and three Consultants in OMFS at FVRH. DCTs attend ward rounds and theatre lists. They assist in outpatient clinics -and are bleep holder first on-call for emergency cases. There is one session allocated per week for study, and the DCT is expected to take an active part in quality improvement activities.</p> <p>The Oral Surgery department offers a broad range of clinical activities and experience in the following; consultant clinics, minor Oral surgery sessions, supervision, and clinical teaching of BDS students, management of emergency patients and experience in sedation sessions and theatre lists in FVRH and Lanarkshire hospitals.</p>	
10.	Suitable for Temporary Registrant?		NO
11.	Primary Care element Performer/List Number required?		NO
12.	Pattern of working including any on-call commitment	<p>Overnight on-call commitments Weekend on-call commitments</p> <p>The current on call is shared with NHS Lanarkshire and the rota is 1:5 non-resident. This can involve A&E attendances in the NHS Lanarkshire hospitals; Monklands District General Hospital, Wishaw General Hospital and Hairmyres Hospital in addition to the Forth Valley Royal Hospital acute site. FVRH, currently takes admissions from both Forth Valley and NHS Lanarkshire during the week and solely Forth Valley at weekends with Lanarkshire admissions going to Greater</p>

		Glasgow and Clyde over the weekend. On-call can involve travelling between hospitals to see or review patients. You must be able to travel between hospitals. The current on call is supported by the West of Scotland Specialist Registrars and Forth Valley and Lanarkshire consultants. It is recommended that you reside within a 30-minute travel time radius from your on-call base.
13.	Educational programme summary	<p>There is a Scotland-wide education programme for Dental Core Trainees which is designed to match the DCT curriculum. The programme has four themes running through each year of Dental Core Training. These are: Clinical, Communication, Career Development Skills and Quality Improvement & Patient Safety. Posts begin with a local health board and NES induction, followed by face-to-face study events throughout the year, supported by Turas Learn. These events include all Dental Core Trainees in Scotland, as does the annual DCT conference.</p> <p>All trainees have access to study leave time (in line with terms and conditions of service) and budget. This is predominantly to fund attendance of DCTs at the compulsory NES Educational events, however funding may be available to contribute to the cost of other courses linked to an agreed PDP.</p> <p>DCT posts include time for self-directed learning and trainees are encouraged to use this time for personal study and to complete quality improvement projects.</p> <p>All DCTs, who have not worked in an Oral & Maxillofacial Surgery (OMFS) unit in Scotland previously, attend an additional two-day induction course known as Maxfacts. This course is designed to cover the essential skills for an OMFS DCT post and is delivered by OMFS consultants and senior trainees. The teaching is backed up by on-line resources which will be made available to DCTs prior to the Maxfacts course.</p>
