

DENTAL CORE TRAINING 2022/23

Scotland - Aberdeen Dental Hospital – Restorative Dentistry

1.	Deanery name	Scotland
2.	Type of training post	DCT3
3.	Rotational Post information	Not rotational
4.	Training unit/location/s	Aberdeen Dental Hospital and Institute of Dentistry: Restorative Dentistry Department
5.	Full address of training units where training will take place	Aberdeen Dental Hospital and Institute of Dentistry Cornhill Road Aberdeen AB25 2ZR
6.	Travelling commitment	N/A
7.	Educational Supervisor	Will be confirmed with post-holder
8.	Description of the training post	<p>There is one DCT3 post available in Aberdeen Dental Hospital in Restorative Dentistry. The Restorative Dentistry Department provides a diagnostic, treatment planning and advice service to referring practitioners and carries out specialist level treatment where appropriate. The Restorative Dentistry Department also has significant involvement in the provision of tertiary services including the care of patients with varying and complex treatment needs, in particular those who require multi-disciplinary care. This includes the management of head and neck cancer patients; patients with other acquired defects due to surgery and orofacial trauma; and developmental and congenital abnormalities including cleft lip and palate, joint orthognathic and/or orthodontic cases, hypodontia and other disturbances in tooth development.</p> <p>The post will involve the trainee attending new patient consultant clinics, in addition to carrying out treatment clinics which involve the delivery of the full range of procedures in Restorative Dentistry in a fully integrated manner. All aspects of Endodontics, Periodontics, Fixed and Removable Prosthodontics, including Maxillofacial Prosthodontics, and Implant Dentistry are performed within the department. The trainee will have a combination of independent treatment clinics in addition to consultant supervised treatment clinics for the treatment of more complicated cases. The trainee will also attend the joint Restorative/Orthodontic/Oral&Maxillofacial Clinic in addition to the joint Restorative/Oral&Maxillofacial Implant Clinic. Appropriate time will be provided for the trainee to carry out audit and personal study.</p>
9.	Primary Care training element	N/A
10.	Educational programme summary and library facilities	There is a Scotland-wide education programme for DCT3s which is designed to match the DCT curriculum. The programme will include an induction followed by a number of study events throughout the year, supported by Turas Learn. These events will be delivered with a mix of face to face and online sessions, which will include all DCT3s

		<p>training in Scotland, as does the annual trainee conference which includes the DCT1s and DCT2s. All trainees have access to study leave time (in line with terms and conditions of service) and budget. This may be used to access MFDS/MFD/MJDF courses and other courses linked to an agreed PDP. DCT3 posts include time for self-directed learning and trainees are encouraged to use this time for personal study and to complete quality improvement projects.</p> <p>All DCTs, who have not worked in an Oral and Maxillofacial Surgery (OMFS) unit in Scotland previously, attend an additional two-day induction course: Maxfacts. This course is designed to cover the essential skills for an OMFS DCT post and is delivered by OMFS consultants and senior trainees. The teaching is backed up by on-line resources which will be made available to DCTs prior to the Maxfacts course.</p>
