9.	Description of training post	<ul style="list-style-type: none"> The Oral Surgery department at Glasgow Dental Hospital and School offers a broad range of clinical activities and experience in the following; consultant clinics, minor Oral surgery sessions, supervision and clinical teaching of BDS students, management of emergency patients and experience in either sedation sessions or theatre lists at non base hospital sites. There is a regular Oral Surgery journal club, at which DCTs are expected to present, to benefit from appraisal by senior staff. The Department of Oral Medicine receives referrals from a wide geographical area as it provides the main specialty referral centre for the West of Scotland and beyond. The specialty manages patients with non-surgical head and neck problems encompassing a wide variety of medical specialties. Core training post holders are allocated to consultant clinics where they will see patients under supervision. Most clinical activity takes place at the Glasgow Dental Hospital –however the DCTs will be expected to travel

		<p>if required to clinics out-with GDH. Virtual clinics are also undertaken via video (Near me) or telephone. There is a phlebotomy service supported by trained dental nurses. The DCT's in Oral Medicine are expected to screen laboratory results and help prepare cases for clinico-pathology meetings, complex case discussions and morbidity and mortality meetings. In addition, the DCTs will embark on QIP projects with the help of senior colleagues. Opportunities for presentation at journal club are available. The unit has recently expanded with the addition of 4 new StRs and there will be many learning opportunities for the DCTs.</p> <ul style="list-style-type: none"> All departments in this post have been extensively refurbished in recent years and offer excellent clinical facilities. The Restorative Department at GDH offers experience in: Periodontology, Fixed and Removable Prosthodontics and Endodontics. There are both core and specialist level training post holders working throughout the department. Clinical experiences may include: new patient referral clinics, treatment sessions, including basic surgical training, supervision of BDS or BSc students, and an emergency patient session

13.	Educational programme summary	<ul style="list-style-type: none"> There is a Scotland-wide education programme for Dental Core Trainees which is designed to match the DCT curriculum. The programme has four themes running through each year of Dental Core Training. These are: Clinical, Communication, Career Development Skills and Quality Improvement & Patient Safety. Posts begin with a local health board and NES induction, followed by face-to-face study events throughout the year, supported by Turas Learn. These events include all Dental Core Trainees in Scotland, as does the annual DCT conference. All trainees have access to study leave time (in line with terms and

		<p>conditions of service) and budget. This is predominantly to fund attendance of DCTs at the compulsory NES Educational events, however funding may be available to contribute to the cost of other courses linked to an agreed PDP. DCT posts include time for self-directed learning and trainees are encouraged to use this time for personal study and to complete quality improvement projects. All DCTs, who have not worked in an Oral & Maxillofacial Surgery (OMFS) unit in Scotland previously, attend an additional two-day induction course known as Maxfacts. This course is designed to cover the essential skills for an OMFS DCT post and is delivered by OMFS consultants and senior trainees. The teaching is backed up by on-line resources which will be made available to DCTs prior to the Maxfacts course.</p>
