

DENTAL CORE TRAINING 2022/2023

Scotland – Glasgow Dental Hospital (Restorative) then Crosshouse Hospital (OMFS)

1.	Deanery name	Scotland
2.	Type of training post	DCT 2
3.	Rotational Post information	Glasgow Dental Hospital and School Crosshouse Hospital
4.	Training unit/location/s	This post is based within NHS Greater Glasgow and Clyde Glasgow Dental Hospital Restorative Department then NHS Ayrshire and Arran at Crosshouse Hospital with on-call duties and outpatient clinics at Ayr Hospital.
5.	Full address of training units where training will take place	Glasgow Dental Hospital and School, 378 Sauchiehall Street, Glasgow G2 3JZ Crosshouse Hospital Kilmarnock Road, Crosshouse KA2 0BE
6.	Travelling commitment	There will be a requirement to travel within the Greater Glasgow and Clyde and Ayrshire and Arran Health Board areas in order to obtain a range of experience
7.	Educational Supervisor	Will be confirmed with post-holder
8.	Description of the training post	<p>The first placement will be from September 2022 to March 2023 at Glasgow Dental Hospital Restorative Department. The Restorative Department at GDH offers experience in: Periodontology, Fixed and Removable Prosthodontics and Endodontics. There are both core and specialist level training post holders working throughout the department. Clinical experiences may include: new patient referral clinics, treatment sessions, including basic surgical training, supervision of BDS or BSc students, and an emergency patient session.</p> <p>The second placement will be from March 2023 to September 2023 at Crosshouse Hospital. The timetable at Crosshouse Hospital rotates on a four-month basis through differing combinations of clinics and theatre. Post holders will participate in a 1 in 6 on-call rotation.</p> <p>Dentoalveolar surgery constitutes the majority of the work carried out by the unit, which is mainly dealt with by Specialty Doctor(s) and DCTs under supervision. The consultants also undertake dentoalveolar surgery in the day surgery unit.</p> <p>Orthognathic surgery: A complete facial deformity service is provided, treating both acquired and congenital deformities.</p> <p>Trauma: Hard and soft tissue trauma of the face, jaws and neck is dealt with and a on call service is provided</p> <p>Head and Neck Oncology and Reconstructive Surgery: The department provides the maxillofacial input to the head and neck oncology and reconstruction service. This is carried out in conjunction with otolaryngology, with</p>

		<p>microvascular surgery at the Queen Elizabeth University Hospital, Glasgow.</p> <p>Facial cancer: The OMFS and dermatology departments have joint clinics on a monthly basis to allow the dermatologists to refer patients with facial cancer. It also enables the OMFS Unit to refer interesting skin problems to the dermatologists.</p> <p>TMJ Disease and facial pain: The department provides the Ayrshire service for this treatment</p> <p>Oral Medicine: The Ayrshire service is provided by the department</p>
9.	Primary Care training element	None
10.	Educational programme summary and library facilities	<p>There is a Scotland-wide education programme for DCT2s which is designed to match the DCT curriculum. The programme will include an induction followed by a number of study events throughout the year, supported by Turas Learn. These events will be delivered with a mix of face to face and online sessions, which will include all DCT2s training in Scotland, as does the annual trainee conference which includes the DCT1s and DCT3s. All trainees have access to study leave time (in line with terms and conditions of service) and budget. This may be used to access MFDS/MFD/MJDF courses and other courses linked to an agreed PDP. DCT2 posts include time for self-directed learning and trainees are encouraged to use this time for personal study and to complete quality improvement projects.</p> <p>All DCTs, who have not worked in an Oral and Maxillofacial Surgery (OMFS) unit in Scotland previously, attend an additional two-day induction course: Maxfacts. This course is designed to cover the essential skills for an OMFS DCT post and is delivered by OMFS consultants and senior trainees. The teaching is backed up by on-line resources which will be made available to DCTs prior to the Maxfacts course.</p>
