

DENTAL CORE TRAINING 2023/24

Scotland

Dundee Dental Hospital Oral Surgery/Restorative Dentistry

1.	Deanery name	NHS Education Scotland
2.	Type of training post	DCT2
3.	Rotational Post information	Not rotational September 2023 – September 2024 – Dundee Dental Hospital: Oral Surgery & Restorative Dentistry
4.	Training unit/location/s	This post is based within NHS Tayside. Twelve months will be in Dundee Dental Hospital.
5.	Full address of training units where training will take place	Dundee Dental Hospital, Park Place, Dundee, DD1 4HR
6.	Travelling commitment	May need to travel between local sites
7.	Educational Supervisor	Will be confirmed with post-holder
8.	Description of the training post	The DCT2 post provides comprehensive experience in oral surgery and restorative dentistry. There is good exposure to simple exodontia and minor oral surgery including treatment under conscious intravenous sedation and general anaesthetic. The trainee would also be exposed to all Restorative disciplines including fixed and removeable prosthodontics, endodontics and periodontics. The post holder will be expected to engage with undergraduate teaching of simple exodontia in addition to being involved in Consultant clinics in both Oral Surgery and Restorative Dentistry.
9.	Primary Care training element	N/A
10.	Educational programme summary and library facilities	<p>There is a Scotland-wide education programme for Dental Core Trainees which is designed to match the DCT curriculum. The programme has four themes running through each year of Dental Core Training. These are: Clinical, Communication, Career Development Skills and Quality Improvement & Patient Safety. Posts begin with a local health board and NES induction, followed by a number of face-to-face study events throughout the year, supported by Turas Learn. These events include all Dental Core Trainees in Scotland, as does the annual trainee conference. All trainees have access to study leave time (in line with terms and conditions of service) and budget. This may be used to access MFDS/MFD/MJDF courses and other courses linked to an agreed PDP. DCT posts include time for self-directed learning and trainees are encouraged to use this time for personal study and to complete quality improvement projects.</p> <p>All DCTs, who have not worked in an Oral and Maxillofacial Surgery (OMFS) unit in Scotland previously, attend an additional two-day induction course: Maxfacts. This course is designed to cover the essential skills for an OMFS DCT post and is delivered by OMFS consultants and senior trainees.</p>

		The teaching is backed up by on-line resources which will be made available to DCTs prior to the Maxfacts course.
