DENTAL CORE TRAINING 2026/27

NHS Scotland

Aberdeen Dental Hospital Oral Surgery/Aberdeen Royal Infirmary OMFS

		Orkney & Shetland, total population 630,000. The Out-Patient Department is situated within the Aberdeen Royal Infirmary. A full range of OMFS procedures are performed and access to operating under GA, LA, and LA with IV sedation is available to our patients. Routine OMFS outpatient clinics are scheduled for everyday and combined specialist clinics to discuss treatment of facial disproportion and oral rehabilitation with our orthodontic and restorative dentistry colleagues on a weekly basis. Weekly combined Head and Neck clinics are held with ENT and Oncology within the Maxillofacial department. The post holders' duties will include attending outpatients, attending theatres in ARI, RACH and Stracathro. There is no on call commitment attached to this rotation.	
10.	Suitable for Temporary Registrant?		NO
11.	Primary Care element Performer Number required?		NO
12.	Pattern of working including any on-call commitment	Monday to Friday	
13.	Educational programme summary	There is a Scotland-wide education programme for Dental Core Trainees which is designed to match the DCT curriculum. The programme has four themes running through each year of Dental Core Training. These are: Clinical, Communication, Career Development Skills and Quality Improvement & Patient Safety. Posts begin with a local health board and NES induction, followed by face-to-face study events throughout the year, supported by Turas Learn. These events include all Dental Core Trainees in Scotland, as does the annual DCT conference. All trainees have access to study leave time (in line with terms and conditions of service) and a budget. This is predominantly to fund attendance of DCTs at the compulsory NES Educational events; however funding may be available to contribute to the cost of other courses linked to an agreed PDP. DCT posts include time for self-directed learning, and trainees are encouraged to use this time for personal study and to complete quality improvement projects.	

DENTAL CORE TRAINING 2026/27

NHS Scotland

Aberdeen Dental Hospital Oral Surgery/Aberdeen Royal Infirmary OMFS

		All DCTs who have not worked in an Oral & Maxillofacial Surgery (OMFS) unit in Scotland previously, attend an additional two-day induction course known as Maxfacts. This course is designed to cover the essential skills for an OMFS DCT post and is delivered by OMFS consultants and senior trainees. The teaching is backed up by on-line resources which will made available to DCTs prior to the Maxfacts course.
