

## Healthcare Science Education and Training Event 2024

Thursday 8 February (online) and Friday 9 February (hybrid / in person at COSLA, Edinburgh)

### Who Should Attend?

Anyone within our Healthcare Science community involved with training. The event is suitable for all trainees and supervisors, regardless of whether they currently have any trainees.

### Our Event

NHS Education for Scotland's twelfth national education and training event is for you as a member of our community involved with training. Our hybrid event provides an eclectic mix of online webinars and in person sessions at COSLA, Edinburgh taking place over 2 days. We hope this format presents sufficient opportunities for colleagues to engage. Regardless of identity, specialism or destination, it is an opportunity to hear about topics of interest to our Healthcare Science community and to contribute to it. Our event is completely free and also offers trainees the opportunity to showcase their poster work.

### Poster Competition for Trainees:

#### Communicate the positive impact that Healthcare Science has on patients every day

Can you design an engaging poster that clearly communicates your Healthcare Science specialism and role to the general public? Imagine your poster was going to be displayed in your local GP practice. Tell us what makes your specialism interesting, is it because of the science, engineering or technology involved? Explain how your role has a positive impact on patients' lives. Our poster competition is for all current trainees with a National Training Number.

We recommend using Microsoft PowerPoint to design posters, they should be saved in PDF format and submitted to [HCS@nes.scot.nhs.uk](mailto:HCS@nes.scot.nhs.uk) by 24 January 2024. This is to enable them to be judged by our panel in advance of the event.

Rather than print them, posters will be displayed in an online gallery and 4 winners will be chosen to give 5-minute presentations in-person at COSLA on Friday 9 February. However, please note the 4 winning posters will be printed and distributed widely during our Healthcare Science Week campaign in March 2024. There will be prizes of £200, for individual submission, or up to £700, for joint submissions of up to 3 Healthcare Science trainees, towards CPD support.

### For further details and to register please click on the following link:

<https://events.nes.scot.nhs.uk/>

### Closing Date for Poster Submissions: 24 January 2024\*

\*Please send poster pdfs to: [hcs@nes.scot.nhs.uk](mailto:hcs@nes.scot.nhs.uk)

### Closing Date for Registering: 24 January 2024

Please note that the registration for in person places may close early due to reaching full capacity.
