Please note:

- Student pharmacist numbers are provisional and may change based on exam results and student progress decisions
- Experiential Learning is a national programme and will occur across Scotland in line with the current Scottish Government guidance relating to COVID-19
- Specialist EL activity should have a specific clinical focus or be in an area of pharmacy practice which does not directly align with the other three areas of practice: community, hospital or primary care. Examples include Cardiology, Dermatology, Infectious Diseases, Mental Health, NHS 24, Oncology, Paediatrics, Palliative Care, Prison Services, Substance Misuse
- Hospital and community pharmacy EL activity will include Remote and Rural

If you have any questions, please contact nes.elpharmacy@nhs.scot
